Marist Regional College

In Memoriam

In life Elliot exhibited the values which endeared him to all of us. He was compassionate, sensitive and treated everyone with respect. He approached many of the challenges quietly yet possessed a genuine toughness and was determined to succeed....

He was dearly loved by his family and relatives who Elliot loved and cared for greatly.

He was well liked by everyone who knew him and loved by his close friends, both girls and boys, who witnessed a fun loving guy who was happy and always excellent company. When he entered a room Elliot had the unique ability to lift people's spirits and make everyone feel comfortable.

A highly valued, generous and respected member of the Boat Harbour Surf Lifesaving Club, Elliot represented Tasmania a number of times and was acknowledged as the best of his age group in the beach events on several occasions, particularly the Beach Flags. Regardless of his success Elliot never underestimated his opponents and trained hard to achieve his goals....

Another passion was his Motor Cross. He was a member of the Coastal and Circular Head Motor Cross Clubs. Recognised as a highly skilled and courageous rider he enjoyed the excitement and the thrill of the sport and sharing these special times with his mates.

Elliot also loved his football. A one eyed Port Adelaide supporter he played football with Wynyard, Burnie Dockers/Yeoman and Marist Regional College. He was a popular team member, reliable, skilled, determined and loved a contest. He was disappointed when he thought the team had underachieved or he had played below his best. He was always realistic about his own performance.

At school Elliot was an extremely well liked, respected student. He was polite and cooperative. Elliot will be also remembered for his cheeky smile and his open, friendly attitude to the staff and students of all ages. He loved having a conversation.

Elliot's death is a terrible tragedy and he would be overwhelmed if he saw today's gathering. Elliot achieved a great deal in his relatively short life and had so much to look forward to in the future. He would have never wanted to hurt or upset anyone and unfortunately this one moment in his life has caused an irreversible outcome.

This is not a time for blame or looking for reasons why. What is important is to realize that life is precious and to recognize the wonderful attributes that Elliot possessed.

Recently, we have seen the value of friendships and the importance of supporting each other by talking and spending time together. I urge you all to maintain this consideration for each other, particularly Elliot's family and close friends. I will always remember Elliot as a caring, terrific young man with a fantastic smile.

Richard Lakeland

Excerpts from the Eulogy given by Mr Lakeland at Elliot's funeral.

MARIST
REGIONAL COLLEGE

O God of all beginnings and endings,
We praise and thank you for the gift of this school year.
It has been a time filled with grace and blessings,
With challenges and opportunities, joys and sorrows.
The days have passed quickly, O Lord.
The weeks, the months, the seasons, the holidays and holy days,
The exams, vacations, breaks, and assemblies,
All have come forth from your hand.
With the fulfilment of our personal hopes and dreams.
Watch over us in the months ahead,
And guide each day as you have done this past year.
May we continue to grow
In age, wisdom, knowledge and grace
All the days of our lives.
Amen.

Principal's Report

As another year draws to an end we can reflect on our achievements struggles and hopes for the future, The core values of Hospitality, Respect, Justice, Compassion and Responsibility drawn from our Marist and Mercy traditions provide a great framework within which to reflect on the year that has been.

Parents and Friends' hospitality was shown magnificently in their organisation of the College Fete which is more about fun-raising than fund raising, and the Year 10 dinner which brings together a huge number of parents working to ensure that the evening is a gastronomic success at the very least. Hospitality culminates in the College Graduation Mass and dinner dance, where graduates, parents, caregivers and staff come together to celebrate both spiritually and socially, the graduation of the year's group of young adults. It is a unique event where the boundaries of parent, child teacher disappear and we come together as friends and colleagues.

Respect for learners and learning calls us to strive for excellence. As a learning community made up of parents, students and teachers we work in partnership to achieve our learning goals. Our Year 7 students undertake literacy and numeracy tests in July each year and MRC overall scores for the last two years have been better than the average of schools across Australia with similar socio-economic backgrounds, though there is much room for improvement. Programs to improve literacy and numeracy are coordinated by the Learning Enhancement Centre, the staffing of which continues to grow to meet ever increasing needs. ILP or the Individual Learning Program for Year 9 and 10 students who struggle to perform in the traditional classroom is an example and is a great success with students involved in hands on enquiry learning in their field of interest. At the same time, a program to identify gifted students and extend them in their learning was initiated this year with 15 students from Years 7 – 10 involved in the program.

As a matter of justice we owe it to the members of our learning community to provide appropriate facilities, the latest of which is the Harcombe Centre. A gymnasium has probably been on the wish list since 1959 and now 47 years later we have a first class facility, which includes classrooms, a double gymnasium, fitness room, office and storage areas. Why the Harcombe Centre? Father James Harcombe was the Provincial of the Marist Fathers in Australia who answered Archbishop Guilford Young's invitation to build a school on land provided on the outskirts of Burnie. I had the pleasure of meeting Father James in Sydney in May. He is ninety-two years old and looks forward to coming to the official opening in March next year.

Education is not just about the quality of facilities and resources. In fact, research shows that among the most important factors for parents in choosing a school is its capacity to provide a safe environment in which members care for one another, are compassionate and have a sense of responsibility for themselves and others. Some examples which give cause for much hope: Students raised $15,000 for Caritas, Marist and Mercy Missions; during the winter, staff and students provided hot breakfasts for Circular Head students, the landcare group has done great work on the grounds of the College and, both last year and this year, a group of Old Scholars has provided scholarships of $1000 each to 10 Year 7 students to assist them with uniforms, books and levies.

I would like to thank the Governing Council for their support of the College and, in particular, the members of the Board of Management who have provided wonderful advice and encouragement as the College grows in enrolments and facilities. I am very grateful for Richard Lakeland's outstanding leadership of the College during my long service leave this year. Each member of the leadership team has been an inspiration in their dedication, openness to change and wholehearted care for the College community.

With great sadness, the College farewelled Year 11 student Elliot Triffett. Elliot died on Monday 27 November. He was a fun loving, enthusiastic young man who loved his sport and had a great smile. He will be greatly missed by his family and friends.

Farewell and thanks to staff members, Tony Valentine, Ross Wakely, Danielle Daws, Wendy Kline, Jennifer Dent, Natalie Valentine and Christine Andrews who have already or will soon be leaving the College. We wish them all the best in their future endeavours.

May I wish you all a safe and holy Christmas celebrating the joy of family, just as Mary and Joseph did in the birth of Jesus.

Susan Chen
December, 2006

Governing Council's Report

It is once again my privilege as the Archbishop of Hobart to write this report on behalf of the Governing Council of Marist Regional College.

The Governing Council of the College draws its membership from the various religious institutions and Catholic educational organisations that collaborated together in the formation of Marist Regional College.

In addition to myself as its Chairman, the membership of the Governing Council consists of Mr John Bloomfield, Sr Jan Geason RSM, Fr Garry Reynolds SM, Mrs Kathleen Siggins and Dr Dan White (Director of Catholic Education).

This year the Governing Council has farewelled Fr William Ryder as the representative of the Marist Fathers. Fr Ryder's wisdom and insight has been invaluable to the Governing Council and the College over a number of years and I would like to thank him on behalf of the Governing Council. We welcome Fr Garry Reynolds to the Governing Council and look forward to his contribution to the work of the Governing Council over the coming years.

A significant task of the Governing Council over the past twelve months has been the revision of the Constitution. Following legal advice, it was agreed that a constitutional template would be developed which could be adopted by the six Colleges governed by an Archdiocesan Governing Council. The Governing Council has worked in conjunction with the Board of Management in the development of this document which will be implemented at the beginning of 2007.

A further focus of the Archdiocese of Hobart over the past twelve months has been the development of a Youth Ministry strategy. We are extremely fortunate to be the host country for World Youth Day in 2008 and believe this is a wonderful opportunity for our senior students to be involved in a very significant time in the life of the Catholic Church. I would like to thank the Governing Council and College for joining in partnership with the Archdiocese in the employment of three Youth Ministry Officers who will work both on World Youth Day preparations and also assist in the development of spirituality of our youth.

The Governing Council would like to congratulate the Board of Management and the College Leadership Team for the work it has done in the planning for and construction of the gymnasium. Significant time and energy must go into the planning for such a project and the students of the College will reap the rewards of this planning over many years.

In closing, I would like to thank the membership of the Governing Council for their wise counsel and support during the past year and I look forward to working with them again in the coming year.

Adrian L Doyle
Archbishop of Hobart
Chairman of the Governing Council

Parents and Friends Association

The Parents and Friends Association calendar started in 2006 with the fete and concluded the year with the Year 10 dinner. The group supported the three parent forums held in Term 2, held meetings to decide on the allocation of funds raised and held an AGM in October. It has been another successful year for the P&F in terms of financial, parent and community support for our College.

During the first week of the new school year the group met to begin planning the fete and 7 weeks later a fun-filled day, bigger and better than ever, was staged. Everyone involved gave their best, we added more games, rides and food to ensure everyone was well catered for and fun was the essence of the day. The added bonus was the $10,560.51 raised and this money was used to purchase class sets of lab coats for science, art and MDT to protect uniforms, an art drying rack, a pie oven and fridge for use in the pavilion, a shade umbrella for the quadrangle, peer support training programmes, funds to invite inspirational speakers to talk to students and an allocation to continue the College's role in combating the issue of bullying.

The Year 10 dinner was another successful venture with parents and friends continuing the tradition of providing a delicious array of food, drinks and service to compliment a memorable evening.

The parent forums provided a wealth of information to interested parents who were further educated in the areas of student management policy and procedure at Marist, young people and parties and career pathways and subject choices. The evenings provided both information and advice and ample opportunity for parents to question and be involved in the discussion at a very relevant level.

The annual State Parents and Friends Conference was held in Launceston and five members of the group attended, listening to some very challenging speakers, participating in workshops and meeting and sharing with other parents who share similar values and concerns about raising children.

At the end of this year my time as a Marist parent will come to an end. I sincerely thank the Marist staff and community for the care and nurturing of our children during the last 8 years and believe Marist is a college we can be proud of in supporting us as parents raising young people who are confident in their past and excited about their future.

The association with Marist of our secretary Jules Wilson and valued member Noelene Hurkett also comes to a natural conclusion and I thank them both for their service, loyalty and commitment over many years and hope they leave with a sense of a job well done. Congratulations to Tess McDonagh on her election as president, Julie Barnett as secretary and to Rosalie Nayler who is continuing as our very capable and valued treasurer.

In sincerest gratitude, we thank...

Christine Andrews
Our photocopy assistant for 19 years, Christine will be remembered for her welcoming and calm nature as well as providing a sympathetic ear to staff and students in need of a good listener and kind word. She has been a loyal member of staff with a genuine attachment to the College and its message of God's love.

Danielle Daws
Danielle joined the staff in 2005 and brought with her some refreshing new ideas to Drama. She developed an excellent rapport with students and managed the department very efficiently. She was the Director of the highly successful "Pirates of Penzance", which involved a large number of staff and students working together to achieve a polished production. She leaves to move to Hobart and is expecting her first child in April.

Jennifer Dent
Jennifer has been a dedicated member of the teaching staff from September 1994 to September 2006. As well as Information Processing and Business Studies teacher, Jennifer has been acting Year Level Coordinator and run classes in the use of computers for parents. She has a great ability to empathise with students at risk and always encourages students to behave and present themselves well.

Veronica Edward
Veronica accepted a temporary and challenging appointment in April to teach Art and Art photography. Her calm and gentle manner was much appreciated by both students and staff. Very talented in her own right, she inspired the students to develop some very original works. Next year she hopes to continue her studies in Melbourne.

Wendy Kline
Wendy replaced Catherine Woodberry as librarian in charge in 2005 while Catherine was on leave. Wendy brought her own style making some changes but also supporting the great work that goes to make such a vibrant resource centre. Her organizational skills were impressive as was her courage in tackling the borrowing habits of students and staff alike. She leaves the College to spend more time with her young children.

Natalie Valentine
Natalie worked at MRC in 2006 as a part-time counsellor. She is popular with students who "beat a steady path" to her door. Natalie, Tony and their daughter Harriet, have returned to family in Queensland.

Tony Valentine
Tony joined the staff at the end of June 2005 as a Science teacher and Faculty Head of Science. He quickly developed a great rapport with students, staff and parents and became very involved in the life of the College. During 2006 he came on the Leadership Team for short periods of time as Acting Head of Student Welfare while the Deputy Principal and then Principal were on leave. One of his many achievements was as manager of the Senior A football team which won the State premiership, particularly notable because he is an avid rugby fan and former player. Tony brought humour and warmth to his generous and sincere care for students.

Ross Wakely
Ross came to Marist from Karratha in Western Australia at the beginning of 2006 to take up the position of Head of the Maths department. He has shown himself to be a diligent head of faculty and dedicated Maths teacher. He has a genuine and sincere love for the students as well as high expectations of their commitment to the subject. Ross has returned to his previous school, and looks forward to a warmer climate.

Board of Management

Membership

This year saw John Neilson resign from the Board and his vacancy filled by Mr Robert Rimmelzwaan. Fr Pius Jones, Fr Bernie McFadyen, Margaret McKenzie & Sandra Harvey have all been appointed for second terms. These join Colin McKenzie, Susan Chen, Suzanne Harris, Garry Dazeley, Paul Smith and I on the Board. Regrettably Mrs Suzanne Harris' term has come to an end, finishing 6 years on the Board. Suzanne has also served for 8 years on the School P& F committee, many as President. She has been a terrific example of dedication to the College and will sorely be missed. The Board members were joined in meetings by Les Allen & Richard Lakeland.

This year has seen the Marist Board working on a diverse range of issues:

Master Plan

The construction of The Harcombe Centre has been the single largest building project in the College's history. This facility is now complete with only landscaping to be completed, and will be a major asset for the College, its students and the wider community for generations to come.

Architects are currently doing a review of the College's Master Plan to help us identify and cost priorities in developing the College for the future. We see significant issues with the age and design of some of our classroom areas and increasing enrolments, (we are expecting 800 students for 2007) which continue to place pressure on availability of rooms.

We are currently planning the refurbishment of the old assembly hall for drama and general learning areas and investigating the options for installation of a lift for the music area.

Other Matters

The reductions of hazards identified in last year's major safety audit of the College (with Gary Dazeley providing expert assistance) has seen major steps taken to reduce risk and eliminate hazards in the College's physical surrounds and in operational practices.

The Board has continued to provide input into the draft governance documents emanating from Governing Council, and looks forward to a satisfactory resolution to this process.

Finally I would like to thank fellow Board members, the Parents & Friends, College Staff and students for their collective efforts in taking Marist Regional College forward in all aspects of its development. We can all see the improvements in the College's physical assets but it is in improving the learning and development of our students, in increasing numbers, that we can all take pride.

Kevin Young
Chairman

Student Representative Council

This year the new Student Leadership Model was implemented. Derived predominantly from the Marist Schools in New Zealand, this system is vastly different to the original Leadership Model. The Student Representative Council is now made up of 20 students, who are each placed in one of 5 committees: Academic, Special Character, Community, Sporting and Cultural. Each committee is headed by a selected student and it was these 'heads' that were given the opportunity to travel to New Zealand for a Marist Youth Leadership Forum.

This Leadership Forum was a fascinating experience, with each of us learning and developing key leadership skills. We were also able to seek guidance and advice on the new Leadership Model Marist had decided to employ. While exposed to other Marist schools, we quickly recognised the strength of each groups' school spirit, through the way each school passionately performed their songs and dances together. Upon returning home, the entire SRC agreed that we needed to build Marist's school spirit. Instantly we began to organise events and reorganise traditional activities that promoted school spirit.

Instead of holding an annual whole school Swimming Carnival, this year we decided to hold a year 7-8 carnival on one day and then hold a year 9-12 the next, with the rest of the school coming to the pool in the afternoon to participate in the relays. This new format aimed to encourage younger students to swim, as the we understand that it is a daunting task to compete in a race with the whole school sitting only metres away.

Our next project was the SRC's traditional ghost tunnel, which has been held for many years but never fails to lose its appeal.

The Athletics Carnival remained the same format as previous years, with the SRC running a barbeque, ice cream van and two canteen facilities. We worked furiously over the carnival's 2 days and our facilities were a major success. On behalf of the SRC, we would like to thank the many students who were willing to help with the cooking and selling of food, when SRC members were required to race. Our success could not have been achieved without their assistance.

This year the format of Feast Day was altered. Unlike previous years, the teachers – in conjunction with the SRC – planned all the activities for the day and together we organised over 30 activities that catered for students' differing interests. It was a gigantic task, with the day turning out to be very successful. Thanks must go to Mr. Ireland who relentlessly helped the SRC plan Feast Day and was willing to spent hours in the Boardroom sorting preference sheets.

The annual Marist Social – held once a term - is another event that we altered this year. Instead of whole school socials, we held a year 7-10 and then a Senior College social in first term and then held a year 7-9 social in third term, which both aimed at promoting bonding between certain grades. We found that attendance rate was high to these events, possibly because a smaller social is as not daunting as a whole school one.

Work Experience

28 August – 1 September

Work Experience is an ideal opportunity to experience a career path first hand and was held in the last week of August. It provides invaluable knowledge for students about life outside the confines of Marist Regional College. Throughout the week I had the wonderful opportunity to visit students from Smithton, Stanley through to Devonport. The amount of positive comments from employers was extremely pleasing. Students displayed a genuine work ethic, maturity and appropriateness of choices in careers. The success of the week relies heavily on the goodwill and generosity of employers to accept our students.
This year students in Year 10 undertook experience in many varied occupations including; Teaching, Law, Health Sciences, Heavy Machinery, Horticulture, Aviation and Hairdressing. One hundred and forty three students undertook the program this year.
One young lady had an interesting and exciting week at The Advocate Newspaper and the Editor in Chief made the comment to me "she is one of the best work experience students we have had this year". Many of her articles were published in the paper throughout the week.
Congratulations to all the Year 10 students on a very special and worthwhile experience.

Tim Horniblow
Careers Adviser.

Peer Support

2006 has been another successful year for the Peer Helper program at Marist. The Peer Helpers in Years 10, 11 and 12 have been quietly and discreetly supporting fellow students, and one another, through some challenging times.

A huge number of applications and close voting resulted in 29 Year 120 students attending Peer Helper training workshops in May and September this year.

Peer Helpers once again ran a very successful Helium Balloon stall at the Marist fete in March. We sold out in record time and gave away hundreds of KidsHelpLine stickers and wallet cards in the process.

Peer Helpers and last year's Orientation Day Buddies helped out with activities and cooked a BBQ lunch for the Year 7 Cultural day at Mersey Bluff in first term, and helped out again at the Year 7 Greek Day in September.

More than 60 Year 9 students trained as Orientation Day Buddies and kept up the tradition of previous years by doing a great job supporting new students on Orientation Day in November.

We will be sad to say farewell to the Peer Helpers who will leave Marist at the end of the year. They have all made a significant contribution to the life of the College, often as "unsung heroes".

Thank you to the Parents and Friends Association for continuing to generously fund this worthwhile program. Thanks also to Ms Celena Laing (Teacher), Mrs Jenny Garnsey (Youth Health Nurse) and Mrs Cherie Neilson (School Counsellor) for training and supporting peer helpers throughout the year.

Sam Turner, Sam Newman and Amy Neilson (Year 10 Peer Helpers)

NATIONAL YOUTH SCIENCE FORUM – Canberra 31 December 2005 – 14 January 2006

To get to Canberra I caught the 6:30am flight out of Devonport to Melbourne and then travelled approximately 9 hours on a coach with the other students from Tasmania, Victoria, South Australia and southern New South Wales. On the way up we stopped in Albury for lunch but unfortunately the Rotary club forgot about us and we were extremely upset when NYSF shouted us McDonald's instead. Because of this delay, we were the last coach to arrive and when we did it was non stop fun from then on.

For the two weeks we were split up into nine groups that were based around either chemistry, physics, biology, engineering or a mixture of all four. Our first week we spent doing site visits where we were able to explore and conduct experiments. As I was in the human biology group (Florey) I visited places such as the Schools of Biochemistry and Molecular Biology, Botany and Zoology and Biological Sciences at the ANU, as well as the John Curtin School of Medical Research, the Pathology department and the morgue at Canberra Hospital, and Entomology at CSIRO. My favourite experiment was dissecting a cow's eye. Our second week was based around self development skills such as public speaking and negotiation skills, and university talks and student forums (debates).

As well as our site visits and activities we also visited popular tourist sites in Canberra such as Questacon, Government House, Parliament House, the National Science Museum, the Australian Institute of Sport, the Zoo and the New Years Eve fireworks. We also had evening activities which included a bush dance, disco, formal dinners, ice skating, swimming, music, dance and sport.

One of the most beneficial aspects of this camp for me was living with 150 other year 12 students, who all had similar interests and aspirations. I had an amazing time and would encourage anyone else who was interested. If you are in year 11 and want to give it a go you can come and see me or your science teacher as soon as possible as it is essential to have a Rotary club lined up by April. You must also remember that the selection criteria are not just based on your science knowledge but also your communication skills, school and community involvement and personality.

Clare Guest Year 12

Country Club Casino, Launceston
Sunday 19th March, 2006

The presentation for the winners in the 2005 competition of the Tasmanian Science Talent Search held recently at Launceston Country Club, was a terrific affirmation of Marist Regional College science students, particularly in terms of open ended research. With approximately 30 students applauded for their investigations, MRC entries accounted for over one third of the exhibits at the state competition. This fact was remarked upon by TSTS Director, Marj Colvill, who said that the "quality of Tasmanian research was equivalent to, if not better than, any of its type she had viewed anywhere across Australia".

As well as taking out a large number of category prizes, MRC students were also awarded: Tasmanian Mineral Council Gold Medals (Jemma Dazeley and Louise Jarman), Comalco Prizes for Chemistry (Jemma Dazeley, Louise Jarman and Storm Holwill), Australian Institute of Physics Prize (Nic Dazeley, Craig Hutchison and Jordan Abell), Australian Institute of Biochemistry and Microbiology Prize (Storm Holwill) and the ANZAAS Prize for the teacher who best promotes science at senior secondary level (Ms Burke).

Technology Challenge 2006

On Sunday 20th August the north-west finals of the Technology Challenge for the Tasmanian Science Talent Search was held at Imaginarium Science Centre, in Devonport.
Judges for the event, Margaret and Jon Hosford were in attendance, as were Marist Science and Technology Talent Search Coordinators, Mr. Anthony Hall and Ms Ann Burke.
The Junior Secondary Section was ably contested for Marist by Year 8 student, Josie Kooistra, who demonstrated the capabilities of her land-yacht, powered by a small battery-operated fan. Although Josie won her section in Devonport, she has yet to hear how her presentation fared compared with others in her age group at the Launceston and Hobart venues. We wish her well as she awaits information on overall placings.
The results for the Photographic Essay Section of the competition were released on the same day and the news was good for a number of Marist students.

2006 Science Fair

The 2006 Regional Science Fair was held on Monday 9th and Tuesday 10th Oct, at Burnie Civic Centre. The Fair was contested by eight schools from along the NW Coast, stretching from Devonport to Rosebery and involved over 250 secondary students. Special mentions must go to Emma Wilson (Year 10), Katie Ling and Annika Barry (Year 10) and Nathan House (Year 9) who were awarded "Best Overall Projects" at the Fair.
Well done to all our entrants and we hope to see you exhibit again in 2007!

Medieval Day

Marist Regional College Year 8 participated in a Medieval Activity Day. The day presented students with the opportunity to finish the term with fun group activities centered on the Medieval History studied during the term. The Year Level Coordinator – Mr Pearce – organized an interesting gourmet BBQ experience for everyone.

The day began with a walk to the local beach where students separated into their classes and prearranged groups to compete in the castle building competition. The competition was organized around three categories: presentation of the group effort, construction of the castle and its design, and the best demonstration of group work. Class time had been allocated to investigating castle designs, draft a castle plan, and organize any materials needed for construction. Over the following hour students keenly constructed their castles using buckets, spades and boxes to shape their castles, and flora remains to represent elements of castles. The competition finished with group presentations and the judging.

After walking back to school, the students broke into groups to participate in a selection of activities linked to medieval times. The selection included: archery, greasy pole, apple bobbing, stain glass windows, juggling, chess, and La Soule – French football. The archery, football and greasy pole activities proved to be very popular.

Lunch provided an interesting selection of Australian game meats including: wallaby, possum, emu, crocodile sausages and kebabs. The BBQ experience was popular with both students and staff.

After lunch everyone assembled in the theatre to watch a selection of Year 8 Drama morality plays. This was followed by a medieval quiz in which five representative from each class answered questions presented through a PowerPoint. The castle building competition judging results and prizes were presented and each class moved to a classroom to participate in the final activity for the day – creating medieval costumes for the class captains using newspapers. A variety of medieval characters appeared for Mr Pearce to attempt to judge the best designs.

The day succeeded in giving students the opportunity to utilize the medieval knowledge gathered over the term while practicing group working skills and having fun as a year group. Although many students faced the BBQ with trepidation, it was a great experience enjoyed by all.

Anthony Hall
Year 8 English/SOSE Coordinator

Vocational Education and Training

2007 has been a productive year for VET Hospitality. The students have participated in various events throughout the year; the Cocktail Party, the Café for the School Fete; lunches and afternoon teas for parents and staff. Students have been on work placement throughout the year. Once again I thank the Burnie community for the support and help given to the students. The students have received many positive comments on their professional attitude and their presentation in the work force.
VET Hospitality students have contributed to the spirit of Marist in giving their time and efforts in the running of the Breakfast club.
I have enjoyed working with my small dynamic team.

Janette Carbonari
VET Hospitality Teacher.

Mathematics

Mathew Maltz, the plastic surgeon who wrote one of the most perceptive and compelling books on achieving success, tells about how much of an effect "belief" had on the behaviour and ability of his friend, Dr Alfred Alder. Young Alfred had made a poor start in arithmetic and his teacher became convinced that he was "dumb in mathematics". The teacher then advised his parents of this "fact" and told them not to expect too much of him. Alfred accepted this evaluation that they'd put on him and his grades backed up his belief.

However, one day Alfred had a sudden flash of insight and thought he knew how to work out a problem the teacher had put on the board, and which none of the other students could solve. He announced as much to the teacher and she and the whole class laughed. At this put down, young Alfred became indignant, strode to the blackboard and worked out the problem, much to their amazement. In doing so, he realised that he could understand arithmetic. He felt a new confidence in his ability and went on to become a good maths student.

Alder had virtually been hypnotised by false belief about himself. Many students have convinced themselves with such ideas as "I am dumb", or I can't do maths". With such a perspective, is it any wonder that students get poor grades?

It would be my wish that as many students as possible at Marist Regional College be convinced that they can have success and be good at Maths. Furthermore, when students experience the joy of success for the first time, then they will come to believe that they can achieve anything they put their minds to.

In this regard it was pleasing that many of our students believe in themselves sufficiently to have a go and participate in various Mathematics competitions in 2006.

In the Westpac Australian Mathematics Competition, Dominic Spinks (Year 8), Gabrielle Hay (Year 8) and Niall Smith (Year 9) achieved High Distinctions as well as 24 other students achieving distinctions.

In the Tasmanian Mathematics Competition, Niall Smith is to be commended for being the best Year 9 student in the state and in 2007 he will be studying pre-tertiary Maths as an accelerated Year 10 student.

Other Outstanding Award winners in this competition were Joshua Whiteley (Senior College), Juan Ospina (Year 10) and Storm Holwill (Year 8).

It was also encouraging to see our Marist team of Juan Ospina, Jabulani Bulle, Niall Smith and Nathan House being the top North-West team in the Upper Secondary division of the Maths Relay conducted by the Mathematical Association of Tasmania.

The students at Marist were fortunate in having the services of a full complement of qualified Maths teachers, and I thank them for their dedication and competence.

Most importantly, however, where would we be without our students?

Congratulations to all the students who know they've put some effort into being the best Maths student that could be in 2006. I hope that you will find the wonderful world of Mathematics more interesting, meaningful and exciting next year. To you all, I would say –
"If you believe you can, you will, but if you believe you can't, you can't and won't."

Ross Wakeley
Maths Co-ordinator

Resource Centre

We have had a hectic year in the Resource Centre with in excess of 122,000 students and staff coming through the doors to utilise the resources and attend classes. The laptop borrowings have kept us extremely busy and we are grateful that Mrs Lisa Haas joined the library team at the beginning of 2006 to help with the increasing work load.

Mrs Woodberry has returned from maternity/long service leave and Mrs Bracken has also taken long service leave. Thankfully, Mrs Dunn and Mrs Rogers have been a constant and steady presence in the library this year.

The Teenage Fiction Club (TFC) has continued to meet every week to discuss books, movies and DVDs. Two students who have been members of the TFC since they were in year 7 left at the end of this year, and we wish Robert More (SC) and Shannon Bird (Year 10) all the best with their further studies. Thanks to all the other members who make it a fun and interesting meeting each week.

The Reading Discussion Group has also continued to meet throughout the year, and a wide variety of books have been read and discussed. The occasional DVD and video have also been enjoyed. Thank you to all members who continue to support the group this year and we look forward to seeing you next year.

We would also like to thank Sister Kathlyn O'Brien for covering the majority of new books which have been purchased during the year. We are very grateful for her help and company.

The Resource Centre has been happy to have some wonderful displays of students' work from many faculties, including: models of pyramids and medieval castles, dioramas on endangered species from SOSE; journals, reports, posters and exquisite dioramas based on the novel "Girl with a Pearl Earring" from the English department and junk sculpture and screen printing from Art students. Being the hub of the College, these displays were seen and apprciated by the larger school community. We also supported the school musical "Pirates of Penzance" with a themed display and staff also donned eye patches and cutlasses on 'Pirate Day'.

I would like to say farewell to students and staff. Over the past twenty months, it has been immensely satisfying to work in this fantastically resourced library with such dedicated and caring workmates. 2006 has been an enjoyable, busy year in the Resource Centre and I'm sure 2007 will be equally so.

Mrs Wendy Kline
Librarian

Feast Day

26

Landcare at Marist

I would like to thank the small but dedicated group of students who have been part of the Landcare Group.

The group has focused on two major projects this year.

The first has been the development of a garden bed beside the walkway to the McAuley Wing. The money received for our Landcare Assistance Grant was used to purchase a range of native plants for this project. The Landcare Group prepared the site by spreading mulch and the area was then planted on National Tree Day by select classes from Years 8, 9 & 10.

Our major project this year has involved the landscaping of the traffic island near the McAuley Wing. This project was funded through a Westpac Community Backyard Grant and achieved with the help of the Year 7 students. The grant money was used to purchase the materials required – the mulch, pavers, sleepers and plants. Paves lead the way to a large paved chess board, with stacked sleepers providing seating for the chess players and spectators. The remaining area has been mulched and planted with some trees and a dense understorey of grasses

We have also continued to maintain the vegetable garden. Food Studies classes have been composting fruit and vegetable scraps and this material is being used to enhance the soil quality in the garden beds. The herb plot is growing well and Natasha (the lemon tree) is coming along nicely.

Wendy Horniblow
Coordinator

Languages Other than English

CONGRATULATIONS to *Marissa King* who is one of only three Australian students recommended for a Monbukagakusho Scholarship. This is the most prestigious undergraduate Japanese language scholarship in the world. Marissa has so far done exams in World History, Maths, Japanese and English. Her success in these exams led to an interview in Melbourne. Success in the interview has seen Marissa's name recommended to the panel in Japan. She is competing against applicants from around the world. If successful, Marissa will study in Japan at a university of her choice for 5 years. The scholarship provides transport, tuition, accommodation fees as well as a living allowance. The first year of study is intensive Japanese language learning and she would then study in the field of her choice in Japanese.
Congratulations again and all of our best wishes for the final stage.

I WANTED TO BE A MARIST STUDENT

How many times did I think so?
I didn't like lots of tests, either when I was a Japanese student.
But, still I think I'd like to be a Marist student.

I got a lot of presents from this school: things like your kind words and your smiles.
I am a lucky girl because I met a lot of nice people and lived in Tasmania which was my dream.

Thank you very much for being kind to me and making my dream come true.
I hope that I can see you again very soon!!!

Mina Shimahara

French is an amazing language. Year 8 French has been especially exciting. Starting off with the basics, we rapidly delved into sophisticated terms and expressions. Throughout the year, we've had lots of fun cooking French pastries, and we've made friends along the way, some living in France. French is really cool and is highly recommended to anyone that wants to have a bit of fun, and learning a really cool language. C'est fantastique.

Luke Fletcher

Japanese Trip 2006

First stop Tokyo after very little sleep on the night flight. It was very hot, about 30° every day and we were ready to hit the streets. There were people everywhere!! The five boys were fortunate enough to have the experience of crossing the road with 2000 other people. Despite the amunt of people the streets were amazingly spotless. It is frowned on in Japan to eat in the streets. We were very frustrated trying to find rubbish bins. Den Den Town (electric town) and Harajukyu, Japan's fashion central for under 25's were on the agenda for our first official day in Tokyo. Gothic/punk and multiple piercings were common here, while most Japanese have no piercings at all. Next up was Tokyo Dynamic Day Tour, which included a very traditional tea house set in extensive gardens with 500 year old bonsai trees. We climbed Tokyo Tower and visited the Imperial Palace. Tokyo Disneyland was a highlight.

On Wednesday we travelled to Matsumoto by train. This trip was a good chance to see parts of Japan other than the skyscrapers and industrial buildings which we became accustomed to in Tokyo. We got a good glimpse of Japan's highest mountain Mt Fuji on the way, and also hundreds and hundreds of rice fields!
The place we stayed at in Matsumoto was a traditional inn. We had to sleep on futons, on the floor, with a traditional quilt, and traditional rice pillows, which could be uncomfortable at times. We also had to wear slippers at all times in this inn, which for a few of us was very uncomfortable as the slippers provided were several sizes too small. We went out to a traditional restaurant for tea, where we had to kneel on the floor to eat. This was the first place where we came across the traditional Japanese squat toilets, a few of the girls had a little trouble getting the right technique.

Matsumoto is also famous for Frog Street because in Japanese the word for 'frog' also means 'to return' and we bought little frogs (that fit into your wallet) for each other for good luck. Matsumot is also famous for its onsen – natural hot springs, with outdoor hot springs and steaming saunas which are about 95° inside. You wear nothing but a tiny courtesy towel!! Jack was the only one game enough to sit in it for more than 5 minutes.

The next phase of our trip was our exchange with Kochi Minami High School.

At school we were treated like celebrities. The girls especially would gather round asking for photos on their phones constantly. Japanese boys and girls are very separate, with no physical affection shown in public.
Although their mothers do everything for them, school days for Japanese students are very long. They must get up early, usually to catch a train and/or ride a bike to school. There were literally hundreds of bikes in the racks. After school most students have club activities, which go until late every night (7 pm).

At the school we had to wear slippers all the time. Classes were very different than ours, with no homework and a major lack of discipline. Sometimes you would look around the room and half the students would be sleeping or the girls would be checking themselves out in the mirror, fixing their makeup, hair, or plucking their eyebrows or arms, because in Japan the girls shave their arms and eyebrows.
Schools don't have recess so you have to wait until lunch to eat. Students either have cafeteria lunches or packed lunch called obento. Obento usually has rice, meat, salad and fruit and is eaten with chopsticks. If you have rubbish from lunch or anything, then you have to take it home with you because there are no bins.

While we were at Kochi Minami High School, we introduced Australian culture to the students and experienced Japanese culture including Kendo, tea ceremony, flower arranging, dancing and shamisen, which is like a Japanese guitar! We were also introduced to umeboshi, pickled plums which are absolutely disgusting but the Japanese love them.
On the Thursday we went on a school trip with the Hungarian exchange student, Gabrielle. We went to a wax museum, caves, MacDonald's for lunch, Mount Godaisan, a Buddhist temple and Katsurahama beach. On Friday we attended an English night where we worked with English students to complete English and Japanese based challenges.

Leaving on Sunday was really hard. Some of us had to say goodbye to friends that we had first met ten months before, while other friendships were only 9 days old. Regardless of this, we all found it hard to leave our host families and K□chi school friends.

We arrived at Hiroshima on the Shinkansen or bullet train, this being our fourth destination. After tea most of us were pretty tired and had an early night whereas others watched the soccer till the early hours of the morning. At 5.05 in the morning the New Hiroden hotel started to sway. Our beds were shaking and the doors were swinging. The earthquake measured 6.4 on the Richter scale, which was pretty huge as in Japan anything above 7 can be devastating. Everyone was woken up by it, except Ashley Maxwell who slept through the whole thing. It was kind of exciting but most of us were pretty scared.

The next day we went to the island of Miyajima via the ferry. At the island we saw the famous red torii, the floating temple and some very annoying deer, who are very tame but try to steal your food. For the rest of the day we were free to do what we wanted on the islands. Some us caught the cable cars to the top of the mountain, which had an awesome view and was the home of some monkeys, while others visited the Miyajima aquarium and watched a seal show. Everyone then walked the souvenir shop street and caught the ferry home.

That night the whole group went out for tea at Okonomiyaki village. It was a really enjoyable and relaxed atmosphere seeing Australia was playing Japan in the World Cup soccer that night. The waitress and chefs were dressed up in Japanese jerseys and face paint. They cooked our food in front of us which was delicious and on leaving we sang Waltzing Matilda and the Aussie, Aussie, Aussie oi, oi, oi chant. We then went down to the street and the boys had a kick with some Japanese supporters and made our way back to the hotel.

In the morning we went to visit Peace Park. As you probably know during World War 2 America dropped an atomic bomb on the city of Hiroshima, the city was totally destroyed and thousands of innocent people were killed. Peace Park is a memorial to all these people that died. It also has within it the only remaining building from before the bomb. It is known as a dome because it has a dome shaped roof. Also at Peace Park is the story of the thousand paper cranes. You might have heard the story about the little girl who was dying of cancer as an affect of radiation after the bomb. She made 1000 paper cranes for good luck, but she sadly passed away. As respect to her, schools all over Japan made 1000 paper cranes and they are stored at the memorial for children affected by radiation. After Peace Park we went to the Peace Park Museum, and then went shopping in the afternoon. In the afternoon we departed from the train station bound the castle city of Kyoto.

We spent the last few days in Kyoto for last minute shopping, an awards night and struggling to fit all our shopping into our cases. We would like to thank Ms Ball, Ms Thornton and Mr Eade for all their time and effort in making this trip a success.

Jack, Annica, Laura, Kayla, Alex, Clare, Garry, Amy, Evan, Marissa, Ashlee, Amy, Hannah, Ashlee, Keziah, Jenn, Catherine, Elly, David, Andrea.

WHIRLPOOL COOKING COMPETITION – DEVONPORT

This year Marist Regional College had an increase in participation at the cooking competition. Two Year 10 teams; two individual entrants; one Senior College team and one individual Senior College entrant. Teams participated from all over the state. Marist students should be proud of their achievements on the day.
Year 10 teams were asked to produce a cold entrée and hot dessert in 45 minutes. The individual entrants were asked to produce an entrée using chicken and a hot dessert in 40 minutes.

Amy Neilson Year 10 second place, individual.

Senior College Team: Rebecca Morris, Chaz Moroney, Hannah Wilson, Caitlin Pearce – third place

Year 10 Team: Laura Bass, Laura Poke, Anna Wainwright, Samantha Turner, Sam Newman, Kate Ling, Olivia Lucas, Stacey Dodd.

Year 10 Individual: Brogan Mancell

Drama

It's been a fantastic year in Drama. All students have worked hard and Marist Regional College can boast some extraordinary acting talent amongst the students.

The Senior College Drama class wowed audiences with their mid-year performance season entitled "A Night of Love". Audiences were treated to the creative self-devised performances based on the theme of love. The Year 10 Drama classes also showcased their talents during their Non-Realistic Theatre Performance Night. Their pieces were also original, self devised, and highly entertaining!

The end of year performance exams went smoothly for both Senior College and Year 10, and showed the strong skills learnt throughout the year.

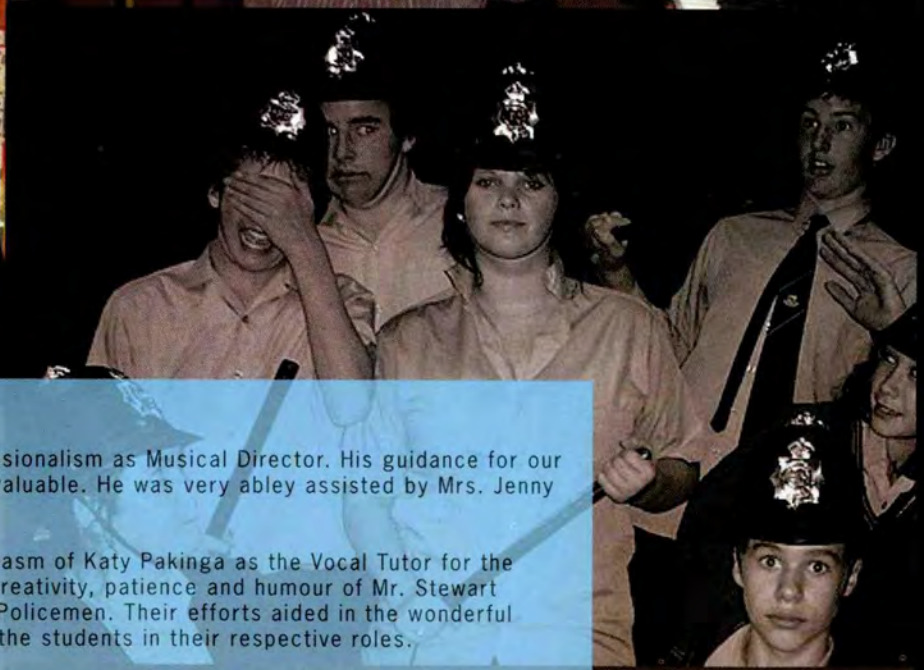
Year 9 Drama worked hard on their studies, ending the year on a high note with their own interpretations of Shakespearean scenes. Years 7 and 8 worked solidly on building their performance skills and I am sure that Marist has many budding actors in the junior years!

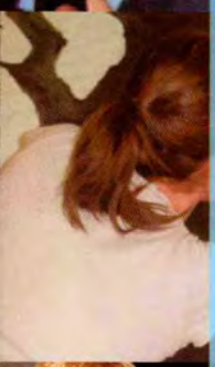
The Drama Eisteddfod was a high point of the year, with many excellent results. All our Drama students performed brilliantly, but there were three standout performers - Suzette Pullinger, Emma Huston and Brogan Mancell. These three young ladies captivated audiences with their many performances and are a credit to Marist Regional College.

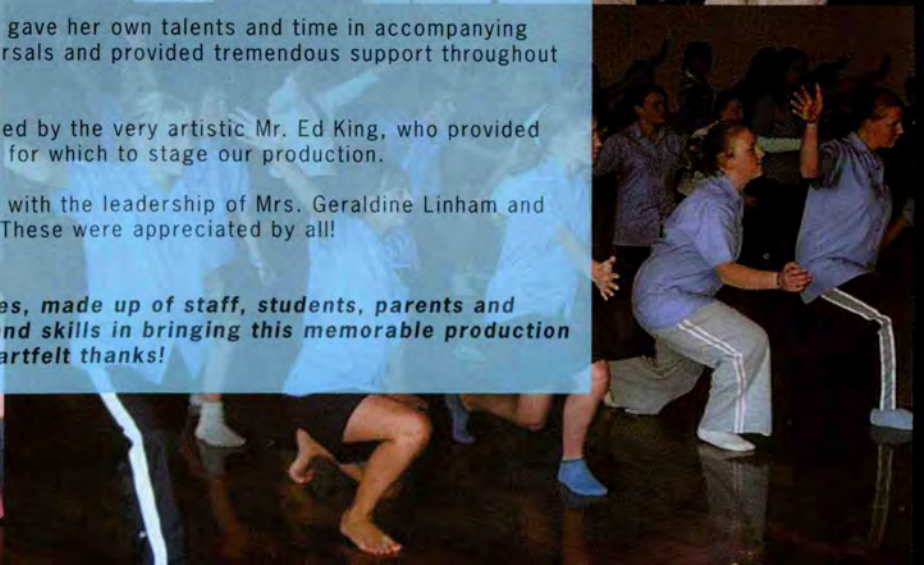
I'd like to take this opportunity to say goodbye to the students. I've had many memorable moments at the College, and it has been an absolute honou to work with so many talented young performers.

Danielle Daws
Head of Drama

PIRATES OF PENZANCE







A special thank you...

To Mr. Thomas Lamb for his professionalism as Musical Director. His guidance for our band of talented musicians was invaluable. He was very abley assisted by Mrs. Jenny Lakeland as Choral Director.

For the tireless energy and enthusiasm of Katy Pakinga as the Vocal Tutor for the Chorus of Pirates. As well as the creativity, patience and humour of Mr. Stewart Corrick as the Vocal Tutor for the Policemen. Their efforts aided in the wonderful standard of performance given by the students in their respective roles.

To Mrs. Jill Bacon, who generously gave her own talents and time in accompanying students on the piano during rehearsals and provided tremendous support throughout the shows.

To the set designers and painters led by the very artistic Mr. Ed King, who provided our cast with the perfect backdrop for which to stage our production.

For the brilliant costumes, created with the leadership of Mrs. Geraldine Linham and her team of hard working helpers. These were appreciated by all!

Lastly, to all those unsung heroes, made up of staff, students, parents and friends who gave of their time and skills in bringing this memorable production to life, we extend to you our heartfelt thanks!

Pirates of Penzance was such a brilliant show to work on. Marist Regional College has some of the finest young performers that I have ever had the privilege of working with. This musical could not have happened without the strong support from College staff and parents. Thankyou.

Rehearsals were hectic from the beginning of the year, and many songs and dances had to be learnt quickly. Our cast were all hard workers and the show was up and running by May. What an achievement! With two months to go, our cast and crew were able to have a well deserved break in the holidays and returned fresh and raring to go in Term Two. From there, the show was fine-tuned and it developed into an outstanding show.

However, the performers were only one part of this enormous production. The band rehearsed constantly, costumes were skilfully designed and created, the set went from amazing sketches to an even more amazing reality on stage, lights and sound had to be designed and operated, and advertising and front of house were equally fantastic.

The show itself ran without a hitch and many glowing reports were given by audience members. All our hard work had paid off – Pirates of Penzance was an overwhelming success and all involved should be congratulated on their efforts.

At the end of the whole process, there were many other benefits that have lived long past the closing night. Many new strong friendships were formed as a result of such a close-knit cast, and many students discovered talents they didn't know they had.

Thank you again to all involved in this fantastic show – this kind of event simply cannot happen without all the support and encouragement given by students, staff and parents.

All the best for future Marist Musicals!

Danielle Daws

Bass House Report

Bass House finished 2006 with another successful year. Success came early with the swimming carnival bringing us a second place after a high level of participation and bonus points for cheering. The house spirit unfortunately dropped at the athletic carnival, despite many talented Bass athletes. Yet Bass took their fourth placing and thus, ultimate defeat, with grace. From then on Bass members contributed an enourmous effort, taking out the cross country and the newly returned House Debating title.
A big thanks and congratulations must go to all those involved, especially Bass house members and we would like to wish you all good luck in the future.

Matthew Young and Emma Clayton.

Cook House Report

This year for the House of Cook has been one of ups and downs. Results from the swimming carnival weren't as impressive, placing last; however, Captain Rhys Harris' belly smacker from the five metre board in the bomb competition elevated our spirits. A much improved second place was awarded in the athletics carnival which proved that little Cookies perform much better on land than in water. Our fear of very steep hills however, put off many Cookies and we unfortunately placed last in the cross country. Thank you so much to all Cookies who participated this year, many competing when their chances of success were slim or when they were unwell or injured. it's been a very enjoyable year and we wish next year's Cook captains the best of luck in 2007.

Go Cook!!!

Rhys Harris and Grace Harris

Flinders House Report

2006 has been a successful year for the Flinders House, improving our position at all three meets. We were able to go one better than last year at the Swimming Carnival, finishing second and displaying great talent in the pool. We gained second place once again in the cross country thanks to a great number of competitive participants. Against tough opposition at the athletics carnival we finished third due to a high participation rate and determination shown by all House members. It is evident that there are a number of very talented young athletes, and as a result Flinders clearly has a very bright future.
Thank you to all those students who participated in events and to the Flinders' teachers who were willing to give up their time to help organise the running of the carnivals and support our House. We would like to wish next year's House Captains the best of luck and hopefully Flinders can continue to improve. We encourage all Flinders members to become involved as this contributes to maintaining the spirit, and leads to greater enjoyment and success. Thanks, and all the best for the future!

Jarrod Wilson and Caitlin Brakey

Tasman House Report

What a victorious year for Tasman!

We started the year with winning performances in both the senior and junior swimming carnivals. Aside from outstanding individual performances, this was largely due to Tasman's high participation levels. We also went on to win the Athletics Carnival, once again due to high participation, enthusiasm and who can forget those outstanding Tasman individual performances which put the icing on the cake? Unfortunately we were unable to claim victory in the cross country but we gave an honest effort which contributed to a respectable result. We thank all teachers and parents who made running these carnivals a great success and also all other SRC members because without these people these events would be impossible to organise.

A huge thank you must go to the entire Tasman team who made this a very successful year. We encourage people to participate and have a go in these events. You don't always have to be the best to be a winner. We wish next year's captains and House members the best of luck and we are confident they will carry on with Tasman pride and success.

NSATIS / TAS ALL SCHOOLS CROSS COUNTRY CHAMPIONSHIPS

About 60 Marist students travelled up to Symmons Plains to take part in the NSATIS and Tas All Schools Cross Country Championships. With a few of our good runners out through State commitments or injury. It was always going to be a difficult task winning the NSATIS shields this year. There were a number of fantastic performances by individual runners and these have been listed on the previous page.
The entire Under 14 Girls team also won the team event and finished first in the State, whilst the Under 15 and Under 18 Girls team came third overall in the State!
The standout run was by Jane Engwerda who won the girls Under 17 event overall, Ella Fox, Leah Waldhauser and Maverick Weller all finished second in their events.
Congratulations and a big thank you to all the runners for their efforts this year.

Jamie Luck
Sports Coordinator

The school cross country carnival was held in perfect conditions this year resulting in a high rate of participation in Years 7 to 10. All students who took part should be congratulated for their positive attitude and perseverance on a difficult hilly track. Year 7's finished off their day with a sports afternoon. Year 8's were treated to a movie in the Colin Theatre after their run. In the house points Bass broke Tasman's winning streak in the carnival series this year. There was a very tight tussle between the top three teams with Flinders finishing 2nd thanks to their up and coming talent in Year 7.

House Championship Results

Bass	614 points
Flinders	606 points
Tasman	600 points
Cook	501points

Individual Age Group Results

U/13 Girls	U/14	U/15	U/16	Open

Australian Representative

CONGRATULATIONS to Amy Phillips who gained selection in the Australian Junior Taekwon-Do Team which competed in the World Championships in Sofia, Bulgaria from 26th – 30th July.

Amy was selected to compete in her weight division for sparring and patterns. She has been a very dedicated member of the Somerset Club for the past nine years. Amy's coach and instructor, Roger Pearce says it is a fantastic achievement.

Well done Amy!

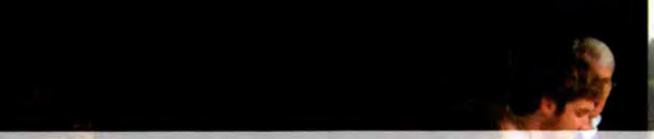
Athletics Carnival



CHOCOLATES & CHIPS
SNICKERS

The Athletics Carnival was conducted in May for the first time with cool but fine conditions.

On the track there were several stand out performances. Ben Dunn was unbeatable in the U/13 boys age group winning every event on the track.. Mav Weller was in fine form in the U/14 boys events. Tyson Mihocek was the big improver this year overcoming Tom Russell in the sprints. In the girls track Caitlin Pearson took home a clean sweep winning every Open event. New student Kendall Shotton displayed incredible pace in the U/15 girls sprints and U/13 Ella Fox blitzed her opposition in a number of events.

One record was broken on the track. Breanna Russell in the Under 16 girls events, broke the 1500m record (5.24).

In the field events the number of competitors was extremely high. The winners and place getters in the field events was spread out across most age groups leaving a close tussle in age champions.

Four records were broken in the field.
Breanna Russell in the girls U/16 triple jump (9.95m).
Maverick Weller broke 2 records in the U/14 boys javelin (34.66m) and shot putt (14.83m).
Ella Fox broke the U/13 girls javelin record (23.36m).

In the House Championship Tasman continued its winning streak.

Final House points were as follows:

Tasman:	6946
Cook:	6845
Flinders:	6099
Bass	5770

The overall individual Track & Field Champions and runners up in each age group were:

Track Events - Boys:

U/13:	Ben Dunn
Runner Up:	Brad Lewis
U/14:	Maverick Weller
Runner Up:	Luke Russell
U/15:	Mitchel Baker
Runner Up:	Mathew Hurd
U/16:	Tyson Mihocek
Runner Up:	Tom Russell
Open:	Rhys Harris
Runner Up:	Nick McNair

Track Events - Girls:

U/13:	Ella Fox
Runner Up:	Steph Cox
U/14:	Leah Waldhauser
Runner Up:	Morgan Gaffney
U/15:	Kendall Shotton
Runner Up:	Ashlee Radford
U/16:	Breanna Russell
Runner Up:	Jayne Engwerda
Open:	Caitlin Pearson
Runner Up:	Grace Harris

Field Events – Boys:

U/13:	Robbie Fox
Runner Up:	Xavier Flynn
	Zac Hislop
U/14:	Maverick Weller
Runner Up:	Ethan Alford
U/15:	Mathew Hurd
Runner Up:	Jayden Walters
	Will Cochrane
U/16:	Alaster Radford
Runner Up:	Nick Fox
Open:	Mat Young
Runner Up:	Rhys Harris
	Jesse Walker

Field Events – Girls:

U/13:	Ella Fox
Runner Up:	Nikki Gibson
U/14:	Morgan Gaffney
Runner Up:	Madeleine Sheridan
U/15:	Jessica Eastley
Runner Up:	Ashlee Radford
U/16:	Jaime Bradley
Runner Up:	Breanna Russell
Open:	Kirsten Russell
Runner Up:	Jenique Veneable

A big thank you to Mr McKenna, Mrs Saint-John, Mr Clousen and Mrs Morris for preparing the track.

Renee French
Health and PE Co-ordinator

SATIS ATHLETICS CARNIVAL

The SATIS Athletics Team travelled to Launceston to take part in the State Independent Schools Athletics Carnival. With the bus leaving Marist at 6:30am, some students were out of bed at 4:30am!
We had a fantastic day of results at the Carnival, considering the disappointing number of students that were not able to commit to the day, leaving some students needing to compete in a number of events.
Our Girls Open team finished fourth overall for the day, out of ten colleges, which was a fantastic performance considering there were only four girls travelling to Launceston for the day; Kirsten Russell, Caitlin Pearson, Emma Clayton and Jenique Veneable!
Individual feats of Herculean proportions were achieved by a couple of students. Maverick Weller in the Boys Under 14 received three 1sts, a 2nd and two 3rds in his events.
The Fox twins; Robbie and Ella, both achieved 1st in the Boys and Girls Under 13 Javelin! I am sure they would be the first twins to win in the same event at a State Carnival!!
Benjamin Dunn in the Under 13 Boys also had a great day, winning the 200m and finishing 2nd in three other events.
Kirsten Russell won the prestigious Girls Open 100m in a very impressive performance.
There were so many fantastic performances for the day that it is impossible to mention everyone. A big thankyou to all the students who have shown commitment and amazing spirit to attend the two Athletics Carnivals over the last couple of weeks. A big thanks must also go to Mrs Alanna Stretton and Mr. Allen Litherland for travelling on the bus and supporting the team for the day. Thanks also to Miss Bonnie Court and Mrs Susan Chen for their support on the day.

Jamie Luck
Sports Coordinator

Front Row: **Evan Kay, Mathew Young,** Benjamin McCulloch, Jordan **Abell**

SATIS TENNIS FINAL

On Friday 7 April Marist hosted the SATIS tennis final at the Burnie Tennis Courts. The Southern Champions, The Friends' School from Hobart, drove up to play against our boys. Although it did not rain, the wind was indeed a formidable opponent for all of the players!

Marist continued to dominate with ease in the doubles winning both matches quickly. They had to work a little harder to win their singles, but win they did. So the final score was 6 games to 0 for the Marist Boys which was an excellent way to end their impressive season.

Congratulations to the new SATIS tennis champions: Jordan Abell, James Plant, Alex Johnstone, Kade Brakey and Duncan Watson (reserve).

Mandy Farrow
Tennis Manager

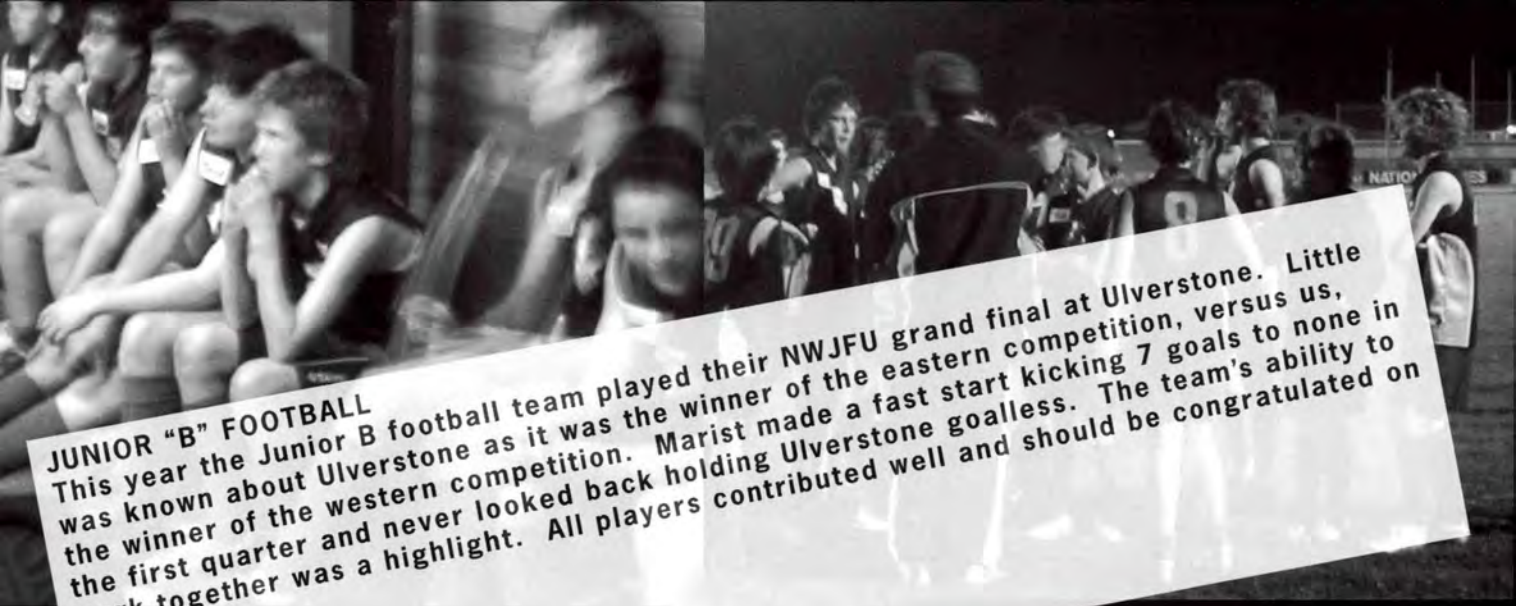
Football - STATE CHAMPIONS

SENIOR 'A' FOOTBALL

"State Grand Final"
Marist 13.9 (87) defeated St Patrick's College 11.1 (67)

Goals: Tyson Mihocek, Stuart Turner 4, Alaster Radford 2, Sam Edgerton, Craig Hutchison, Nick Dazeley 1 each.
In windy conditions and in front of a large vocal home crowd, Marist were able to hold on to a very well deserved win. The State Grand Final had been some time coming as Marist had to wait on the outcomes of finals in other parts of the state.
Given the layoff since our last game our concern was that the Marist boys may have lost some match fitness compared to St Patrick's who had played 2 qualifying games in the past 3 weeks. Through sheer "will to win" the Marist boys played with passion and many commented it was their most physical and demanding match all year.
At three quarter time Marist's lead was 20 points, however, St Patrick's were kicking with the aid of a very strong wind in the final quarter. During the final quarter, both sides kicked 3 goals each and given our lack of match fitness, players cramping, and St Patrick's use of the strong breeze, this was a fantastic quarter.
The most pleasing aspect of the game was the even contribution made by each player which was one reason why we got over the line against quality opposition at the highest level in school football. The result was a just reward for the guys, 4 years of dreams, commitment and hard work.

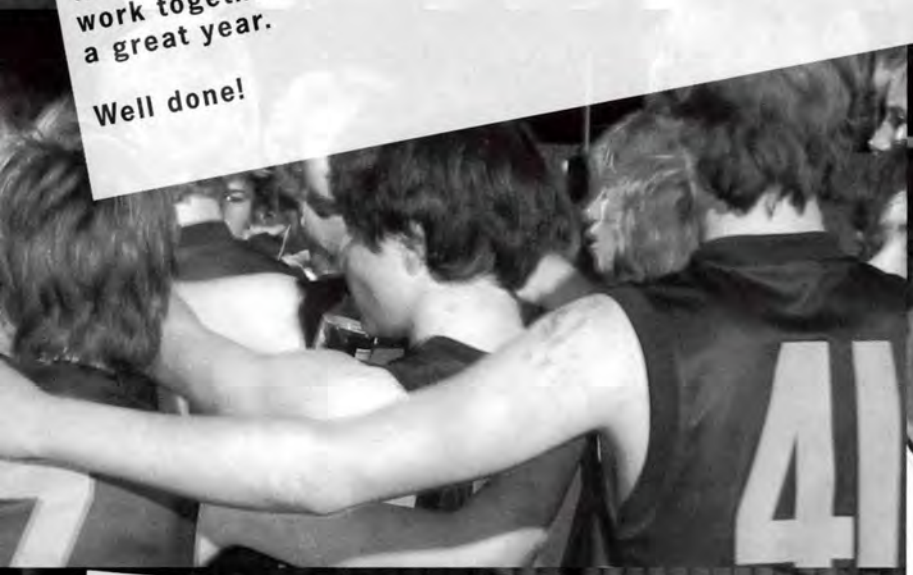
Colin Margetts
Coach



JUNIOR "B" FOOTBALL

This year the Junior B football team played their NWJFU grand final at Ulverstone. Little was known about Ulverstone as it was the winner of the eastern competition, versus us, the winner of the western competition. Marist made a fast start kicking 7 goals to none in the first quarter and never looked back holding Ulverstone goalless. The team's ability to work together was a highlight. All players contributed well and should be congratulated on a great year.

Well done!



SATIS FOOTBALL

Marist entered a team in the "Firsts" competition this year and found the jump in standard from previous years a big challenge. The boys had some competitive quarters in most games, however, they were overwhelmed by the superior skill level of some of the larger colleges. Unfortunately the team failed to register a win, but the courage and determination of a few of the more experienced players was a real highlight during the season. Although the year was not a success in the number of games won, the team enjoyed the experience of playing together in what for many is their last year at the college

Thanks must go to Mr. Kevin Young for coaching the side this year.

Best and Fairest: Kyle Swinden
Runner Up: Mathew Young
Most Determined: Jesse Walker
